Serving Law Enforcement for Over 50 Years

Protect your officers from complaints – an IACP report found that 93% of officer misconduct complaints captured on video exonerated the officer.

Choose the affordable Responder 1000 or the Responder 4000, that integrates both radar & video.

In-Car Video That Works The Way You Do.

The Responder 1000 provides an in-car video system that helps protect officers and the community by efficiently capturing evidence and delivering it to court.

Radar and Video Integrated System.

The Responder 4000 brings a new way of integrating the latest radar and in-car video technology into one system, cost effectively reducing the footprint of tools in the patrol vehicle.
